

MSA WINGRIP® AIO VACUUM ANCHOR

Fall protection solution for aircraft manufacturing and maintenance

MSA WINGRIP AIO SYSTEM VACUUM ANCHOR

The MSA WinGrip AIO System vacuum anchor is a globally certified fall arrest and restraint system for personnel working on aircraft. It is designed for airlines or quick tasks during manufacturing or routine maintenance operations inside the hangar or outside on the apron.

The MSA WinGrip is listed in the AMMs of major aircraft manufacturers as approved to be used on their aircraft.

WHEN TO USE

- Line Maintenance
- A check
- B check

Examples of use:

Logo light, lighting, inspections, pylon access, dry bay, wing cleaning

HOW WINGRIP WORKS

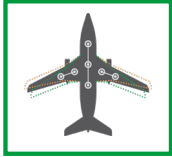

The WinGrip AIO system utilises a fall arrest-rated vacuum anchor that employs a removable, rechargeable air/nitrogen bottle to lock it securely in place via a vacuum. This system enables workers wearing full-body harnesses and utilising work positioning ropes to access walking wing areas or structural fuselage sections hands-free for all necessary maintenance tasks. Each anchor provides a working area with a 3m radius – an additional anchor can be attached for a larger working area or progress on the surface.

MSA WINGRIP® AIO VACUUM ANCHOR

Fall protection solution for aircraft manufacturing and maintenance

THE CHOICE OF THE LARGEST AVIATION COMPANIES IN THE WORLD:

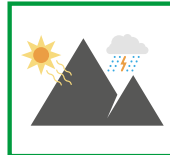

Works with multiple aircraft of different shapes and sizes

20 minutes of safe use in the event of a loss in supply pressure

Weights less than 24 lbs (11 kg) and is easy to set up

Works in challenging weather & higher altitudes

Safe to use on composites & while fuel tanks remain open

Global certification: CE, OSHA, NS/ASZ and UKCA

CONTENT OF THE WINGRIP AIO KIT:

- WinGrip AIO anchor (1x)
- Flying anchor (1x)
- Cylinder (1x)
- Primary vacuum hose, 5m (1x)
- Work positioning rope, twin, 3m (1x)
- Rope pouch (2x)
- Harness (1x)
- Case

Note: Content may vary depending on the agreements with aircraft manufacturers

OUTFIT YOUR PROGRAM WITH THE SIMPLICITY OF AN MSA+ SUBSCRIPTION*

Zero Up-Front Expense

No up-front purchase of devices or hardware. Get your program approved and running for a low, predictable, recurring expenditure.

Always Under Warranty

When you're a subscriber, you're covered under warranty regardless of the age of the device.

Proactive Service

Keep your equipment in tip-top condition through inspection, repair, and initial or refresher training. Easily track your assets and inspection reports in real time by utilizing MSA's digital suite of services.
