

M1 SCBA - YOUR SCBA PLATFORM FOR THE FUTURE

The M1 SCBA is fully customizable and can be configured to meet a broad range of firefighter and safety professional needs. Buy per your budget needs and upgrade later directly in the field.

Overall, the M1 breathing apparatus represents the most advanced, ergonomic, and modular SCBA system, designed and developed side-by-side with Fire and Safety professionals. The all-new M1 breathing apparatus platform includes several innovative and customizable features that help enhance hygiene and improve comfort.

- Greater **MODULARITY**
- Enhanced **HYGIENE**
- Improved **ERGONOMICS**
- Highest **SAFETY STANDARDS**
- Reduced **COST-OF-OWNERSHIP**
- State-of-the-art **COMMUNICATION**
- Entire **SCBA** is machine washable
- Lightest **SCBA** on the market (less than 4 kilos)

M1 MARINE

The Model M1 MARINE meets urgent delivery requirements, facilitates ease of ordering, and continual engagement in selling M1 SCBAs into Marine, shipping, and utility segments where MED approval is required. This Marine Kit offers the flexibility of options with an M1 Backplate Harness Assembly. M1 LGDV, G1 Facemask, and a mix of Cylinders may be added to make a complete SCBA set.

The most economical configuration is listed here, please consult MSA for other configurations.

M1 Marine SCBA Kit		
10239737	M1 SCBA ATO	FI-M7-BNA-DN-SP-BP-GN-C1-IN-JG-KN-L3-MN-NN-EN-PN
10202909	G1 Full Facemask	ATO G1 FP: C- M-1-M-E-R-P

The **M1 MARINE** is supplied with a fixed M1 Lung-Governed Demand Valve (LGDV) includes BASIC harness with plastic buckles, mechanical Classic gauge and a Single cylinder band provides more comfort to wear over the industrial coverall.

The lightweight JG manifold offers a classic gauge, and breathing air is delivered via the **ClassicLine** Pneumatics.

Classic Line Pneumatics (C1)

Backplate with fixed height (BNA)

Basic harness with plastic buckle (BP)

Fixed M1 Demand valve, AS type, Push-to-connect (L3)

Classic mechanical gauge (JG)

Single cylinder band with plastic buckle (SP)

G1 Facemask

The G1 full face mask sets new standards for wearing and breathing comfort with minimum pressure points on the face.

Setting new standards for wearing and breathing comfort

Wide distortion-free field of vision (more than 90% of the natural field of vision)

Rubber harness or net harness

Low profile for less snagging and improved weight distribution

Available in 3 sizes (face blank and nose cup)

Seamlessly C1 headset integration

Excellent communication due to voice transmission through speech diaphragm

Improved face seal for better fit and more comfort

Unique airflow prevents lens fogging and reduces breathing resistance

Push to connect Integrated RFID transponder for easy fleet management

All components easily accessible and interchangeable for easy maintenance and clean
